# ABOUT STUDY BREAK ACADEMY

*Have you ever thought that the path to your desired destination is too arduous and not your cup of tea? Ever wished you had someone who could help you with your admission test preparation like your best friend? If you could go to them with the silliest of doubts at the most unearthly of hours? If you could ask them the same questions again and again without the slightest apprehension of getting ridiculed? Well! With proper care and guidance, your preparation is an enjoyable intellectual journey and not an undesirably hauled burden.*

*We at Study Break Academy, with more than 80+ years of overall teaching experience, realised that unless we catered to you individually and provided personalized and customized care in your preparative journeys, we defeat the purpose of this noble profession. We believe that confidence, attitude and smart work are required to ace admission tests and they come when you are able to feel free to ask questions, speak out your heart and develop a bond with your mentors, which in turn happen when you are patiently listened to, thoroughly understood and your problems are resolved one by one, humanely, but surgically. And an isolated you in a class of forty+ is not very likely to bring the best out of you.*

*Therefore, we endeavour to help you put your best foot forward, achieve your goals, realize your dreams and in the process become a better person both personally and professionally. We endeavour to help you to become market ready by presenting the best version of you to the world, but in the process retaining the human touch that makes one truly successful.*

*Faculty from prestigious institutions with more than 80+ years of teaching experience.*

*Customized solutions catering to your needs, and personalized care for your betterment.*

*24X7 doubt clearing from both Study Break's own material and other materials.*

# OUR CREDO

It is difficult to be successful unless one develops oneself to be one's best version and so becomes highly sought after. This is not possible without specialized and targeted mentorship at each stage of the process. We want to be your best friend and strictest guide in your journey to success!

**Indraneel Biswas**  
Mathematics Veteran

An alumnus of the prestigious IIT, Kharagpur, and IIM, Lucknow, he is genuinely passionate about teaching. After a long career spanning multiple companies and industries, he has now settled with education as his career for more than 13 years, which he does for more than 80% of his waking hours every day. He is someone for whom personal relationships are far superior to transactional ones, and he knows how to convert the latter into the former. This makes him a favourite among students.

**Pradip Goswami**  
Mathematical Genius

An NIT Surat graduate, with an innate capacity for teaching, for more than 20 years, he has been mentoring tens of thousands of students and helping them achieve their academic goals. He boasts of his unique method of mentoring students personally, first breaking the ice, creating a bond with them, understanding the root causes of their problems, and addressing them pinpointedly. If QA or DILR are your Achilles' heel and you need a personalized and customized solution, then Pradip is your one-stop avenue.

**Prajnan Ray**  
English Guru and GWPI Expert

A Computer Science Engineer from JNTU, Hyderabad and an MBA from MDI, Gurgaon, he left his flourishing management career to pursue his passion for teaching. For close to 12 years, his mentorship has shaped many a career and changed many a life. He is an out-of-the-ordinary verbal ability teacher, personality development instructor and a communication, group discussion and personal interview expert. If you are worried about VA or lack confidence when it comes to GD or PI skills, then Prajnan can change your personality altogether.

**Dipanjan Bhowmik**  
Master Mathematician

A vibrant and refreshing Computer Science graduate from NIT, Silchar, he is very passionate about teaching mathematics and logic. He has been teaching for the last 10 years and incredibly, he is always available for his students and ready to go to any extent to help them succeed. Keep in touch with Dipanjan, if you are missing the college senior-like mentorship for aptitude tests.

**Sumanta Saha**  
Pundit Logician

Drawing from his over 20 years of experience mentoring students, he can connect with his students effortlessly and create a long-enduring bond with them, which lasts much beyond his professional stint with the student. If you believe that you need a systematic, well-regulated and well-run solution to your academic problems, then this Mechanical Engineer from NIT, Jaipur is one person you must network with.

**Shubhadeep Roy**  
DILR and GWPI Mastermind

An alumnus of the prestigious IIT, Kharagpur, and IIM, Calcutta, he was always in love with theatre and devoted to teaching. He pursued the passion and devotion of his life for more than 14 years at the expense of a stellar management career. He has mentored thousands of students and helped them get admission into their much-desired destinations, be it the best business schools in the country and worldwide or the most coveted government jobs.

# OUR SUCCESSFUL CONVERTS

**RIDHI MALHOTRA**

INDIAN SCHOOL OF BUSINESS,

“ I got an interview call from ISB around 3 just four days before the scheduled date. The duration was tight, and it was my first management interview. I was very confused with what and how to prepare for it.

One of my friends connected me to Shubhadeep Sir, Prajnan Sir, & Dipanjan sir. They had fixed the schedule on such a short notice and outlined a descriptive structure for the areas on which I had to prepare for the interview.

They took two mocks and very minutely emphasised and counselled me on the areas of improvement after each mock. They guided me put together my short and long term goals and gave me tips about the formal way of communicating my thoughts. The personalised feedback on each note helped me improve in expressing myself.

The mentors had been very polite and patient with me in all the discussions. It was because of their guidance that I was able to convert the call from ISB. I am very thankful to the team. ”

“ Does CAT seem like an insurmountable battle to you? Are you riddled with the question of whether business education is for you or not? I was exactly in your shoes back in 2012, and today, after a long journey, I am a dual degree student in the Harvard-Wharton MPA-MBA Dual Degree Program. And I just wanted to share my journey with you and the story of mentorship from Prajnan Sir, Pradip Sir, Shubhadeep Sir and Sumanta Sir, right across all these years.

I attempted CAT back in 2013, when I was a bewildered first-jobber, barely managing the time to solve the Quant problems or go back and solve RC passages. I think what worked for me in my CAT journey was the customized guidance from each of these mentors, their structured teaching in classes, and, more importantly, their personalized care outside the classes. They helped me solve every single practice exam problem and gave me tricks and tips, starting from how much time I should spend solving the paper versus analyzing it to guidance towards which questions to attempt versus which questions to not. They helped me with choosing the date of the test, since there were many slots that year; which section to attempt first since we could navigate across sections then, and how much time to spend in each section since there were no sectional time limits.

I think over the years, the format has evolved, but the complexity of the number of variables that go into a successful CAT has not. My score of 98.5 percentile in CAT was significantly higher than my dreams. I take full credit for choosing my mentors wisely at the most important juncture of my career. ”
